TECHNICAL WRITING EXPERIENCE

ELEVANCE SYSTEMS – REMOTE |
Enterprise Architecture & Solutions Technical Writer ***August 2025 to Present***

- Architected an enterprise architecture knowledge hub in Confluence, designing the portal, space taxonomy, and page-properties reporting model to improve discoverability and self-service navigation
- Authored documentation governance standards (labels/metadata, naming/slugs, content routing) to enforce consistent taxonomy and ensure catalogs/reports return accurate, filterable results across spaces
- Developed 6 standardized, copy-paste templates (SOP, Runbook, Logical Design, Platform Profile, Interface Record, DR Evidence) to normalize capture of architecture, operations, and recovery artifacts
- Implemented three cross-space Confluence catalogs (Applications, Platforms, Operational Docs) powered by Page Properties + labels, enabling portfolio-style views without manual curation
- Established a lightweight ServiceNow Knowledge workflow (SME working session, Word draft, ServiceNow review/approval), including category/tag conventions and reviewer routing to reduce review churn
- Produced first-draft ServiceNow KB articles within 24–48 hours of SME sessions; reduced intake-to-review cycle time by 82%.
- Led the documentation framework for an enterprise backup & recovery program by converting leadership requirements into publishable standards and generating 627 application-profile stubs to accelerate BCDR inventory buildup
- Designed a LLM pipeline for transcript summarization and information extraction, mapping SME discussions into structured templates; completed final authoring and validation to meet documentation governance standards

OPTAFI – REMOTE | Leading provider of cloud transformation services
Technical Writer ***July 2023 to August 2025***

- Authored and published infrastructure operations documentation (SOPs, how-to guides, reference procedures) in an internal Markdown-based wiki, applying the Microsoft Style Guide to standardize tone, terminology, and formatting
- Partnered with ~20 SMEs across Linux, Windows, and Networking to capture and validate operational procedures, resolving ambiguities through rapid, iterative reviews and SME sign-off
- Maintained and improved the knowledge base through content refactoring (information architecture, page reorganization, deprecation cleanup, link and cross-reference integrity) to increase findability and reduce outdated guidance
- Collaborated with project managers and customer-facing teams to confirm scope, audience, and intent; translated engineering workflows into step-by-step instructions and durable reference material
- Evaluated alternative publishing platforms (ServiceNow Knowledge, SharePoint) and documented trade-offs across search, versioning, content ownership, and lifecycle management
- Performed editorial QA on peer-authored content for structure, tone, and technical accuracy; ensured SME sign-off for specialized or higher-risk procedures

VILLAGEMD – HOUSTON, TEXAS | National leader in value-based primary care
Technical Writer ***September 2021 to August 2023***

- Developed documentation using Microsoft Word, PowerPoint, Visio, and Adobe Acrobat, including how-to video recordings, job aids, medical protocols, and short manuals designed for the highly compliance-driven healthcare industry
- Edited existing documentation and updated protocols and standard operating procedures (SOPs) to maintain accuracy, relevancy, and adherence to an internal style guide
- Interviewed and collaborated with subject matter experts (SMEs) to document processes, policies, role expectations, and training materials tailored to their expertise to leverage continuous learning
- Increased knowledge base engagement by 258% among agents and physicians following repository launch
- Streamlined documentation updates using Excel, Outlook, and Power Automate, reducing turnaround time from weekly to daily in key update cycles
- Developed a new repository using SharePoint and Confluence that received a 90% user satisfaction rating

FREELANCE – REMOTE | Various clients throughout the U.S.
Writer & Editor ***June 2020 to July 2023***

- Acquired specialized expertise in JSON, XML, and documenting REST APIs through the completion of highly regarded Udemy certifications, enabling the creation of clear and concise API documentation for developers
- Developed and wrote 23 pages of keyword-rich website content that boosted the client's search rankings and doubled organic leads from website traffic
- Edited and rewrote a website and marketing materials, resulting in a 75% increase in web traffic and a 200% increase in leads
- Wrote lore, item descriptions, and event dialogue for *Medieval Overhaul*, a top-rated Steam Workshop mod for RimWorld (3,500+ 5-star reviews); collaborated with developers to ensure narrative consistency and in-game integration

CONTENT MANAGEMENT, EDITING, AND WRITING ROLES *NOVEMBER 2014 TO APRIL 2020*

SCORPION MARKETING – VALENCIA, CALIFORNIA | Provider of technology services to U.S. small businesses
Content Manager

- Researched and wrote extensive creative copy, including blog articles, website content, and marketing emails for marketing and SEO specialists, project managers, and individual clients, enhancing the success of respective business goals
- Adhered to diverse tone and style specifications in alignment with project requirements to ensure web pages, blogs, and other marketing writing materials maintained the company's message

THE PAISANO – SAN ANTONIO, TEXAS | Independent newspaper of the U. of Texas, San Antonio
Assistant Managing Editor

- Established a new style guide to ensure all writers followed the same rules and regulations
- Managed a group of 15 writers and editors who reduced publication errors through meticulous editing to elevate journal quality and accuracy
- Contributed to 50% growth in social media engagement by selecting relevant, compelling journal content

SAGEBRUSH REVIEW – SAN ANTONIO, TEXAS | Student-run literary and art journal
Intern

- Expanded submissions by writing and launching a high-impact email marketing campaign that targeted over 100 new leads at universities nationwide
- Contributed to marketing operations by identifying, researching, and reporting on advertising opportunities

NVATE – REMOTE | Magazine focused on innovative new ideas, products, and research
Content Writer

- Conceptualized and pitched articles on healthcare, technological, and scientific topics, including sleep and nutrition studies, blue light filtering applications, and eco-friendly appliances
