Technical Writer | Knowledge Management | Business Process Analyst

SUMMARY

Technical writer and process analyst with 6+ years of experience transforming complex technical information into readable SOPs, reference materials, and other knowledge documents. Skilled at knowledge-base operations, documentation governance, automating processes, and AI-assisted workflows across SaaS, cloud, healthcare, and enterprise environments.

PROFESSIONAL EXPERIENCE

Business Process Analyst II

May 2026 – Present

Autodesk | Remote - Contract

- Migrated a 68-page functional specification into an organized knowledge base spanning domain concepts, application reference documentation, and historical context.
 - Designed source-of-truth matrix across Airtable, Confluence and Miro data models to route documentation to authoritative business rules and behaviors.
 - Documented content standards, including review cadence, templates, metadata, and other governance standards.
 - Developed an AI-assisted migration workflow with 94% of claims supported by a source-of-truth and 96% of legacy content accounted for, both achieving 100% after human review.
 - Performed a knowledge-base quality audit to identify gaps, duplicate content, and conflicting claims; corrected issues to improve consistency and reduce redundancy.
-

Enterprise Architecture & Solutions Technical Writer

Aug 2025 – Jan 2026

Elevance Systems | Remote - Contract

- Built Confluence and ServiceNow knowledge base repositories adhering to taxonomy, metadata, and governance standards to support enterprise architecture.
 - Designed a ServiceNow intake workflow that reduced draft-to-review cycle time from approximately 11 days to under 2.
 - Managed a cross-functional team developing a backup and recovery policy following NIST SP 800-34.
 - Designed LLM-assisted workflow for transcript summarization and mapping from SME discussion to structured templates.
 - Scoped an API-driven approach for capturing BCDR inventory data across 600+ applications.
-

Technical Writer

Jul 2023–Aug 2025

OptaFi | Remote

- Edited and published SOPs, how-to articles, and procedures from other authors for infrastructure and IT operations across MediaWiki and ServiceNow.
- Interviewed 20+ subject-matter experts (SMEs) to capture missing context, resolve questions, and validate procedures and processes.

- Used the MediaWiki API to extract article metadata to support content management and documented the process.
-

Medical Technical Writer

Sep 2021–Aug 2023

VillageMD | Houston, TX

- Wrote and published SOPs, protocols, job aids, and instructional documentation for Call Center, Physician, and Triage teams in a HIPAA-regulated healthcare environment.
 - Built a SharePoint repository for training and medical content, achieving a reported 90% user satisfaction rate and 258% increase in engagement within six months post-launch.
 - Created Power Automate workflows connecting Microsoft Office, Camtasia, and SnagIt tools to streamline document updates.
-

Writer and Editor

Jun 2020–Jul 2023

Freelance | Remote

- Managed keyword research and analytics to create user-focused content and improve discoverability and search performance.
 - Designed websites and marketing materials for small businesses; increased web traffic by 75% and organic leads by 200%.
 - Produced interactive narrative content for gaming communities, including a quest-overhaul project that received more than 3,500 five-star reviews.
-

EDUCATION

B.A., English Literature (Creative Writing)

University of Texas at San Antonio

CERTIFICATIONS

Creating Technical Documentation with GitHub

Information Management: Document Security

Learn API Technical Writing: JSON and XML for Writers
